1: Overview

We assist you in directing the student to resources on the web. The Web Master may use the abusEditor to specify links which may be important for the Student Review

In this module students may create and publish a School Newsletter, in a work group, without leaving the Web browser. Students can upload photos, share information and collaborate with Reviewers and Editors all in a secure portal.

Students can participate in a positive, creative and educational experience on the Web.

2: Links to other sites

3rd Party Solution is an external resource center. Its primary function is to assist students in locating reference information, by providing a place for approved links outside the school's stie. The vast of information available on the internet can assist the student in their various studies.

4: News Room

The Student Center was created to be fun and creative place for students and staff to publish a school's newsletter. The abusEditor provides a fast and easy method for creating and publishing newsletter on the web.

Student and/or staff can be assigned the role of editors, reviewers and writers. Each role assigned is granted different access privileges to the site.
